Nestable container plastic pallet

These container-size pallets leave no empty storage space. Optimized for transport in ISO freight containers, the pallet uses the available load space. There is a choice of three dimensions (Nest C5 = 43 x 43, Nest C5.1 = 44 x 44). All sizes come with an open or closed upper deck. Besides the nestable version (9 feet), the pallet is also available with 6 runners (cruciform perimeter base) and can therefore be used for block stacking.

Bottom support

> 9 feet (9F)

> 6 runners (6R)

Optional without safety rim

Deck options

> open deck (OD)

> closed deck (CD)

Rounded edges

Easy handling

*1 Figures can vary depending on the raw material used and options applied. *2 Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (68°F / 20°C). Varying data may result from different conditions of usage. Your specific requirements can be identified upon request. *3 Minimum quantity required ACM pallets should only be used and stored in a dry environment.
