

Shelf Bins

Boost efficiency with our durable Shelf Bins! Designed for optimal organization and accessibility, these bins maximize storage while ensuring seamless workflow.

- Wide opening allows effortless retrieval of small parts.
- Built-in rear hanglock lets bins tilt for complete access.
- Molded-in label area ensures quick identification of contents.
- Available in many sizes and colours.

Stack and Nest Containers

Enhance efficiency and streamline your storage with our high-performance Stack and Nest Containers! Designed for ultimate versatility, these containers make handling, organizing, and transporting goods effortless across industries.

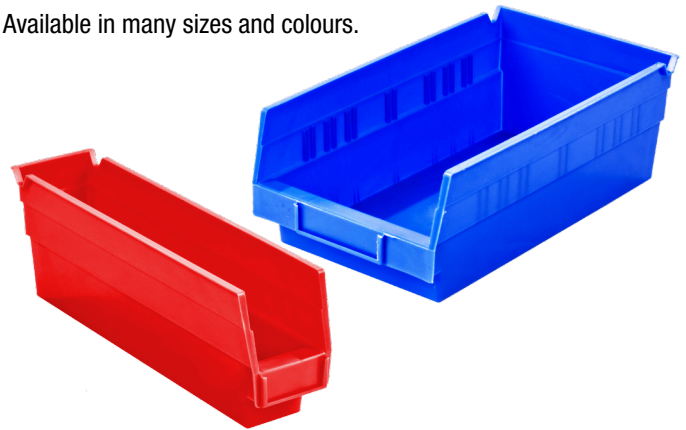

- Stack when full, nest when empty to maximize storage capacity.
- Available in many sizes and colours.

Hanging and Stacking Bins

Maximize your storage efficiency with our heavy-duty Hanging and Stacking Bins! Designed for ultimate functionality, these bins keep inventories organized, speed up assembly processes, and minimize parts handling.

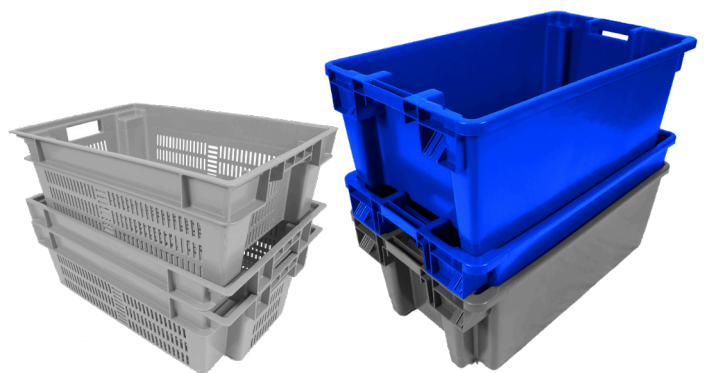

- Optional dividers create adaptable compartments
- Extra-wide stacking ledge keeps bins stable, prevents spills, and optimizes storage capacity.
- Available in many sizes and colours.

Attached Lid Containers

Engineered for rugged performance, our Attached Lid Containers are ideal for shipping, storage, distribution, and order picking. These versatile containers stack, nest, and lock down with ease.

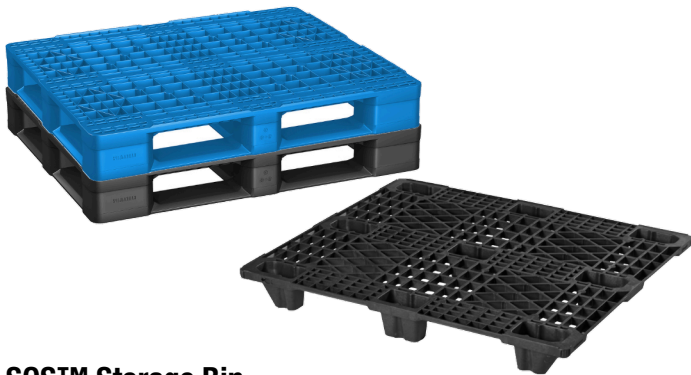

- Textured bottoms provide reliable traction on conveyor belts.
- Padlock eye on both ends supports tamper-evident security ties.
- Stack with lids closed, nest with lids open to save space.
- Available in a many sizes and colours to fit your requirements.

Collapsible Bulk Containers

Our bulk containers are engineered to handle a wide range of industrial applications, from general storage and distribution to heavy-duty material handling. Made from 100% recyclable HDPE, these containers offer long service life, impact resistance, and compatibility with automation systems.

- Available in 32" x 30", 48" x 40", and 48" x 45" footprints.
- Plastic latches and hinges are 100% field repairable.

SOS™ Storage Bin

From rural roads to pool decks to truck beds, the SOS™ Storage Bin delivers reliable protection, high-impact durability, and lockable security for tools, chemicals, or seasonal materials.

- Molded-in hasp allows padlocking to protect contents.
- Ideal for storing salt, sand, garbage, tools, safety gear, and more.
- Fork channels come in all sizes, except the SA500 and SOS5.5.

Louvered Panels

Transform your workspace with durable Louvered Panels, designed to support bin systems with style and strength. Perfect for wall-mounted applications or full rack installations, these panels create a streamlined, vertical storage solution that keeps supplies accessible and off the floor.

- Compatible with Hanging and Stacking Bins (sold separately).
- Smooth and resilient surface resists wear while maintaining a clean, professional appearance.

Plastic Pallets

Our range of plastic pallets offer durable, sustainable, and cost-effective solutions for material handling, storage, and transport. Whether you need nestable pallets for space-saving, racking models for high-bay storage, or hybrid designs that combine both, each pallet is built for performance and longevity.

- All pallets are 100% recyclable.
- Designed for durability, reusability, and operational efficiency.
- Open deck and closed deck surfaces available.

ProCart Utility Carts

ProCart Utility Carts are built to flex with your workflow, combining secure transport, ergonomic design, and durable construction to meet the needs of busy workspaces. These carts adapt quickly for storage, mobility, or assembly tasks.

- Hinged side gates flip up or down to form box-top to flat-top.
- Rail systems (sold separately) accommodate Hanging and Stacking Bins or 19-Series Steel Cabinets.

Versa Deck Platform Decks

Versa Deck platform carts are engineered for high-capacity transport and rugged utility, ideal for warehouses, distribution, and manufacturing floors.

- Molded structural foam deck resists rust, rot, chipping, and cleans easily.
- Four built-in slots keep cargo secure during movement.
- Powder-coated for durability and designed for space-saving.
