

CALIBER CONTAINERS

SAFE, SECURE LIQUID AND DRY GOODS HANDLING

Standard Colours

Caliber IBCs – Engineered for Performance, Hygiene & Efficiency

Designed for rugged industrial use, Caliber Intermediate Bulk Containers (IBCs) deliver durable, stackable solutions that meet strict sanitary and operational standards. Ideal for safe, secure liquid handling.

FEATURES:

- 1 **FDA-Compliant Construction:** Injection-molded HDPE with smooth surfaces for hygienic handling.
- 2 **Tamper-Evident Lid:** Eight locking points secure lid to prevent contamination.
- 3 **Stackable Strength:** Safely stacks up to 5 high; embedded steel rods reinforce side walls for added load support, each holding up to 3,000 lbs.
- 4 **Discharge Flexibility:** Offers top or bottom discharge.
- 5 **Smart Tracking:** Dual molded-in RFID tags for inventory control and process monitoring.
- 6 **Space-Saving Design:** Collapsible format with a 2.5:1 return ratio optimizes shipping efficiency.
- 7 **Forklift-Friendly:** Four-way entry for easy movement in any direction.

PRODUCT HIGHLIGHTS:

- **Hygienic:** FDA-grade surfaces maintain product purity in sensitive environments.
- **Heavy-Duty:** Built to withstand pressure filling, stacking, and repeated handling.
- **Secure:** Tamper-resistant lid and structural reinforcements protect contents in transit.
- **Space-Efficient:** Stackable and collapsible design saves warehouse and return freight space.
- **Customizable:** Label placards, RFID, and colour options tailor each unit to its application.
